**DECLARATION OF JOSEF D.

 INDIRECT PURCHASER
 PLAINTIFFS' MOTION FOR AN
 AWARD OF ATTORNEYS' FEES
 AND REIMBURSEMENT OF
 EXPENSES**

Judge: Hon. Phyllis J. Hamilton
 Special Master: Hon. Charles B. Renfrew

I, Josef D. Cooper, declare as follows:

1. I am a partner with the law firm of Cooper & Kirkham, P.C., which is one of four Co-Lead Counsel for the Indirect Purchaser Plaintiffs ("IPP"). I submit this Declaration in support of IPP Counsel's application for an award of attorneys' fees in connection with services rendered in the above action and reimbursement of expenses. The portion of IPP Counsel's total lodestar and expenses set forth in the application that are attributable to the

**DECLARATION OF JOSEF D. COOPER IN SUPPORT OF INDIRECT PURCHASER PLAINTIFFS'
 MOTION FOR AN AWARD OF ATTORNEYS' FEES AND REIMBURSEMENT OF EXPENSES**

1 work done by Cooper & Kirkham, P.C. in this litigation were all incurred by this firm in the
2 investigation, prosecution and settlement of claims arising from the facts asserted in this
3 litigation. I have personal knowledge of the facts stated in this declaration, and, if called as a
4 witness, I could and would testify competently to them.

5 2. Cooper & Kirkham has substantial experience in complex litigation and
6 antitrust class actions, and has litigated numerous indirect purchaser antitrust class action
7 cases. A firm biography and the biography of each attorney currently employed with the
8 firm who has worked more than twenty hours on the settled state and federal litigation is
9 attached hereto as Exhibit 1.

10 3. On September 5, 2002, Cooper & Kirkham and the law Offices of Francis O.
11 Scarpulla filed a class action in the Superior Court of the State of California on behalf of my
12 firm's client, Totally Computer, Inc., against the settling defendants (with the exception of
13 the Toshiba, Hitachi and Mitsubishi defendants). On December 24, 2002, our case was
14 coordinated with a total of seven cases that had been filed in California state courts as
15 Coordination Proceeding Special Titled DRAM CASES, JCCP No.4265, in the Complex
16 Litigation Department of the San Francisco Superior Court, and assigned to the Honorable
17 Richard A. Kramer. On April 10, 2003, Judge Kramer appointed my firm and Gross &
18 Belsky LLP as Plaintiffs' Co-Liaison Counsel and assigned us the duties of co-lead counsel,
19 including the responsibility of coordinating and supervising all efforts by plaintiffs' counsel
20 and ensuring that the litigation was conducted effectively, efficiently and equitably, and that
21 unnecessary work and redundant expenditures were avoided.

22 4. Thereafter, negotiations began with defendants' counsel to commence
23 discovery and set a schedule for further proceedings. That schedule was presented to the
24 Court in August 2003, and provided, *inter alia*, for the defendants to produce the same grand
25 jury documents, and to proceed with written discovery and depositions in the JCCP
26 proceeding consistent with the Order Limiting the Scope of Discovery that had been entered

1 in April 2003, in the federal direct purchaser actions. The schedule also provided for the
2 filing of an amended and consolidated complaint in the JCCP proceeding. On October 15,
3 2003, Co-Liaison Counsel filed a Consolidated Amended Class Action Complaint on behalf
4 of a nationwide class of non-governmental indirect DRAM purchasers.

5 5. Motion practice and discovery continued in the JCCP proceeding through
6 2004 and into 2005. On February 18, 2005, President George W. Bush signed the Class
7 Action Fairness Act (CAFA) giving federal courts jurisdiction over most class actions in
8 which any member of the putative plaintiff class is the resident of a state different from any
9 defendant and the aggregate amount in controversy exceeds \$5 million. Shortly thereafter,
10 the defendants began threatening to test CAFA's scope by removing the state court actions to
11 federal court. In addition, cases were beginning to be filed in state courts around the country
12 where there were antitrust and/or consumer protection laws favorable to indirect purchasers.
13 Many of these cases had been filed after CAFA's enactment and appeared to satisfy the
14 requirements for removal. In order to facilitate the global litigation and resolution of the
15 claims of the nationwide class of purchasers alleged in the JCCP Proceedings, on June 17,
16 2005, my firm along with other counsel in the JCCP Proceedings, elected to request Judge
17 Kramer stay the state court actions and filed a complaint in this court, captioned *Petro*
18 *Computer Systems, Inc. v. Micron Technology, Inc.*, C 05-0247.¹ That complaint alleged
19 violations of federal and various state antitrust and consumer protection laws on behalf of a
20 nationwide class of indirect purchasers and sought equitable relief and damages. That action
21 was ultimately assigned to the Honorable Phyllis J. Hamilton, coordinated with the direct
22 purchaser actions in MDL 1468, and designated as the operative complaint for all indirect
23 purchasers before this Court.

24
25 ¹ The JCCP Proceedings remain active although stayed and the Superior Court is regularly kept apprised of the
26 status of the MDL Proceeding. They are among the cases the will be dismissed upon final approval of the
settlements by this Court.

1 6. Pursuant to this Court's August 16, 2005 "Order re Indirect Purchaser
2 Plaintiffs" (Dkt. No. 526), Cooper & Kirkham was appointed one of four Co-Lead Counsel
3 for the indirect purchaser plaintiffs in MDL 1468.

4 7. As used herein, "the litigation" or "this litigation" encompasses both the
5 California state court JCCP proceedings and the federal MDL 1468 proceedings.

6 8. At all times relevant to this litigation, each attorney and paralegal in my firm
7 contemporaneously documented all time spent and tasks performed, as well as any expenses
8 incurred. Either Ms. Kirkham or I personally review each of the contemporaneous time and
9 expense records, and all of the time and expenses reported by the firm which appear in the
10 lodestar calculation or aggregate expenses submitted in this declaration were incurred for the
11 benefit of the IPPs. The firm's compensation for services rendered in this case is wholly
12 contingent on the success of this litigation, and is totally at risk. While the firm devoted its
13 time and resources to this matter, it has foregone other legal work, including work for hourly
14 clients, for which it would have been compensated.

15 9. Cooper & Kirkham requests compensation for a total of 20,626.1 attorney and
16 paralegal hours invested in this litigation from inception through May 31, 2013. Time spent
17 preparing the fee petition and related documents is not included. In addition, in reviewing
18 the time records kept by the firm's paralegal staff, it was difficult and time-consuming to
19 separate work of a truly paralegal nature from tasks that are more appropriately classified as
20 administrative. Consequently, in keeping with the policy we apply to hourly clients, we are
21 not seeking compensation for the vast majority of the time recorded by the paralegals who
22 worked on this matter.

23 10. The total lodestar for this time, calculated at the firm's historic hourly rates
24 during the litigation, is \$12,307,090.00. The total lodestar calculated at current rates is
25 \$15,164,801.00.

11. Attached hereto as Exhibit 2 is a summary schedule showing the total time spent by each attorney and paralegal of this firm during the litigation, with a lodestar calculation for each person and a total lodestar at both historical rates and current rates. Also attached as part of Exhibit 2 are detailed schedules showing the total time spent by each attorney and paralegal during each month of each year of the litigation and the year's lodestar calculation for that attorney or paralegal based on the historic and current billing rates. Each of the schedules in Exhibit 2 was prepared from the contemporaneous daily time records regularly maintained by my firm, after review by Ms. Kirkham or myself. The transcription of the daily time records is available and will be furnished at the request of the Special Master or the Court.

12. This firm has expended a total of \$488,922.12 in non-reimbursed expenses in connection with the prosecution of this litigation as posted to our General Ledger. The expenses incurred pertaining to this litigation are reflected in the books and records of the firm and maintained in the ordinary course of business. The firm's General Ledger is prepared from expense vouchers, invoices, check records and similar items showing the nature and payment of an expense, and are an accurate record of expenses incurred. Attached hereto as Exhibit 3 is a schedules detailing all of these expenses, as well as a spreadsheet created from the General Ledger showing the dates the expenses were posted and the amounts paid. These expenses are summarized as follows:

Court Fees & Service of Process	\$ 1,256.00
Postage	1,400.87
Court Reporters/Transcripts.....	1,431.26
Computerized Research (Lexis, Westlaw, etc.).....	30,411.07
Messenger/Overnight Delivery	3,417.35
Photocopies	9,872.13
Telephone/Telephone Conferencing.....	9,140.83

1	Travel: Air/Ground Travel, Meals and Lodging.....	30,365.27
2	Miscellaneous/Other	870.33
3	Consultants/Experts	5,757.01
4	Common Litigation Fund.....	<u>395,000.00</u>
5	TOTAL EXPENSES.....	<u>\$488,922.12</u>

13. In early 2008, Cooper & Kirkham made a policy decision to stop charging its hourly and contingent fee clients for in-house photocopying, local and long distance telephone calls and first class postage. Accordingly, the charges in those categories reflected in the above summary end in mid-2008. We continue to pass on charges for outside vendor photocopying, outside vendor telephone conferencing services and messenger or overnight delivery fees to our hourly clients and to record the costs advanced in those categories in our contingent fee cases in our general ledger. Accordingly, costs incurred in those categories as shown above have been recorded from the inception of the litigation through May 31, 2013.

14. In the almost eleven years between the filing of the first complaints in this litigation, the final settlement with Hitachi in June 2012, and the Special Master's recent Reports and Recommendations regarding the settlements and class certification, IPP Counsel have devoted extraordinary effort and resources on behalf of the IPP class members. As stated above, this firm was one of two firms appointed Liaison Counsel in the California State Court JCCP Proceedings, and one of four firms appointed Co-Lead Counsel in the MDL litigation. In addition to the four co-lead firms, this Court also appointed Francis O. Scarpulla as Liaison Counsel and Terry Gross as Chair of the Plaintiffs' Executive Committee. This group, Cooper & Kirkham, P.C., The Mogin Law Firm, P.C., Gustafson Gluck PLLC and Straus & Boies, LLP, Law Offices of Francis O. Scarpulla (succeeded by Zelle, Hofmann, Voelbel, Mason & Gette LLP), and Gross & Belsky LLP (succeeded by Gross Belsky Alonso LLP), constituted the decision making leadership of the litigation and personally assigned and supervised all of the work performed for the benefit of the IPP class.

1 In many, if not most, instances, members of the firms making up the leadership group
2 performed the work required. Consequently, Ms. Kirkham and I, other attorneys at Cooper
3 & Kirkham, together with the other five IPP leadership firms, have been extensively involved
4 in the day-to-day activities in all aspects of this litigation.

5 15. Those activities are briefly summarized as follows:

- 6 • Beginning in June 2002, Cooper & Kirkham conducted pre-filing
7 investigations of potential price-fixing of DRAM, and in August 2002,
8 prepared our firm's initial complaint filed in California state court, which
9 was among the first IPP class action complaints filed in the nation.
- 10 • The firm participated in the organization and consolidation of all
11 California IPP cases in San Francisco, and served as the leadership of the
12 California JCCP Proceedings.
- 13 • We retained experts to help perform a detailed analysis of DRAM market
14 conditions, including pricing, supply and distribution.
- 15 • We negotiated with defendants concerning the production of documents in
16 the JCCP Proceedings.
- 17 • In the fall of 2004 and early 2005, we negotiated with counsel filing
18 additional state court and federal court cases to coordinate all nationwide
19 IPP cases.
- 20 • We conducted additional investigations concerning the DOJ's indictments
21 and defendants' plea agreements.
- 22 • Our firm participated in the preparation of and filing of the *Petro* complaint
23 in this Court, and related it to the ongoing direct purchaser DRAM MDL

1 proceeding in this Court, and working jointly with counsel in all IPP cases
2 filed in both state and federal courts throughout the nation, obtained the
3 transfer, consolidation, and coordination of all of the federal court IPP
4 actions in the MDL proceeding in this Court, and coordinated the
5 remaining state court actions.

- 6
7 • As Co-Lead Counsel, we organized plaintiffs' counsel to efficiently
8 prosecute the MDL cases, by creating a leadership structure and
9 establishing a method for funding the litigation, and managing to the
10 extent practicable, the efforts of other counsel so that the work that they
11 performed would only be that which effectively and efficiently advanced
12 the interests of the IPP class.
- 13
14 • We oversaw, managed, and participated in the coordinated efforts of all
15 discovery, including document productions, written discovery, data
16 productions, third-party discovery, depositions and discovery motions,
17 supervised and participated in the propounding of discovery requests to
18 defendants and the service of subpoenas to more than 30 third party direct
19 and indirect DRAM purchasers, and in meet and confers with the
20 defendants and negotiations with third parties concerning document
21 production and other discovery issues.
- 22
23 • In addition, Cooper & Kirkham was specifically responsible for the design
24 and implementation of a new structure and technology for document
25 review in the DRAM litigation that, to my knowledge, had never been
26

1 used before. Prior to this litigation, the most common method of
2 document discovery in antitrust cases was to assign a particular defendant
3 to one or more individual firms who would conduct individual
4 negotiations regarding the timing and format of the production. The
5 documents then produced would be reviewed in paper or as microfilm
6 images, usually in the order in which they had been produced, and the
7 salient information from each document (author, recipient(s), date, subject
8 matter) would be recorded by hand on a "coding sheet" and then entered
9 into a computerized data base that could be searched and sorted so that the
10 documents could be retrieved for further review by senior counsel who
11 would then put together the documentary evidence in the case and prepare
12 for depositions and trial. However, by 2002, advances in computer
13 software and hardware, especially in web-based access to documents on a
14 central server and the enhancements in optical character reading, had
15 opened the door to new and vastly more efficient possibilities for litigation
16 document review.

- 19 • Working with an outside consultant, Ms. Kirkham researched, tested and
20 ultimately selected software and a document hosting vendor that could
21 normalize and standardize the formats and load files of the electronic
22 documents that had been produced in the California JCCP Proceeding and
23 were being produced in the MDL litigation, optically "scan" and convert
24 the millions of pages of electronic documents to searchable text files,
25

1 provide a platform for the retrieval of individual documents through
2 Boolean logic (Lexis style) word searches, and then allow for the
3 annotation and organization of the individual documents by multiple
4 subjects and issues. In addition, after the software had been selected,
5 criteria were established for the electronic format of the documents in later
6 productions so that meta-data and load files would be consistent, and not
7 require the same degree of troubleshooting and negotiation with individual
8 defendants' IT personnel as did the earlier produced documents.

- 9
10 • The next step in the process was to work with the vendor to design the
11 user interface that would be employed by the attorneys to annotate and
12 organize the documents. This interface first provided a user with the
13 ability to specify the scope of the document "library" in which a search
14 would take place (for example, a specific defendant, a specific production
15 by that defendant, or the production by all defendants), and then to specify
16 the search terms, the words and groupings of words, which the computer
17 would look for in the library selected. Conducting word searches within
18 the documents identified in the initial or previous searches enabled a
19 further refinement of the search results. Documents identified in searches
20 could be "moved" into folders that then became searchable libraries, as
21 well as annotated with information that was displayed along with the
22 documents' basic information in the search results window. The
23
24
25
26

documents could be displayed as images or text files and uploaded or downloaded in a variety of formats.

- Under the supervision of Ms. Kirkham, a team of IPP counsel developed a framework for dividing the documentary evidence into subject matter and issue categories (e.g., Conspiracy, Pricing Information, Supply and Demand, Capacity and Production, Technology and Specifications) and worked with the vendor to create a user interface that would permit individual documents to be “moved” into one or more folders reflecting this issue structure. They also designed and implemented a system of text fields and pull down menus that would enable attorneys to annotate individual documents with either their own notation or with one or more provided annotations such as “hot doc” or “potential deposition exhibit.” Once selected or input, each of the annotations then became searchable text.
- The availability of this technology permitted the reinvention of the entire document review process. First, it eliminated the need for an initial sequential review of the documents by paralegals or junior attorneys simply to extract the basic information that would later enable subsequent review to determine their value as evidence in the case. Second, because the DRAM review was web-based, it facilitated the creation of a collaborative structure in which attorneys from many different firms could work together without regard to geographic location. In addition, anyone

1 accessing the system was required to log onto the vendor's server, which
2 kept a record of that user's activity. Therefore, a "quality control" log for
3 each user was available to the supervising attorneys.

- 4 • IPP counsel selected to review documents were organized into teams, each
5 of which was responsible for identifying the documents relevant to a
6 particular issue or subject matter. Each team had a leader who was an
7 experienced antitrust attorney with knowledge of the litigation.
8 Similarly, the team members were also attorneys with the antitrust and
9 trial experience necessary to design search terms calculated to retrieve
10 relevant documents and to evaluate the probative value of documents
11 identified. Each team leader supervised the work of a team of five to eight
12 attorneys, usually through team conference calls that occurred at least
13 weekly, as well as through daily progress emails and "as needed"
14 communications. The teams were charged with the creation of search
15 terms and the performance of searches in the entire universe of documents
16 to identify the best documentary evidence in their particular subject
17 matter. Advice, ideas, successes and failures were shared within the teams
18 and also across the teams through the regular team leaders conference
19 calls with Ms. Kirkham, to whom each team leader reported. Each team
20 produced a narrative memorandum of the evidence relevant to its issue or
21 subject matter, with citations to individual highly probative documents.
22 These memoranda were updated periodically and were compiled into a
23
24
25
26

1 general case overview or briefing book that was used by attorneys taking
2 depositions and writing briefs. To maximize the collaborative spirit, as
3 well as quality control, no team leader supervised attorneys from his or her
4 own office.

- 5
6 • As a subject matter team finished its work -- the Technology team being
7 the first and the Conspiracy team the last to finish -- the team was
8 disbanded. The attorneys receiving the highest evaluations from their
9 team leaders were reorganized into the deposition preparation teams. The
10 deposition teams were structured like the subject matter and issue teams,
11 with leaders reporting to Ms. Kirkham. The deposition teams were
12 assigned the task of identifying and organizing the information and
13 evidence relevant to each deponent and providing that information to each
14 attorney taking a deposition (many of whom had been subject matter team
15 leaders or members). For each deponent, the deposition team produced a
16 USB drive containing portions of the general briefing book relevant to the
17 deponent, a memorandum giving a description of what information was
18 known about the deponent from other depositions or documents, a folder
19 containing copies of all of the documents given a designation of "relevant"
20 or higher retrieved by a name search for the deponent, and a folder
21 containing documents which the deposition team had selected as potential
22 deposition exhibits, as well as application software to allow the deposition
23
24
25
26

1 taker to search, manipulate and further annotate the documents on the
2 drive without being connected to the internet.

- 3 • In this manner, Cooper & Kirkham and other members of the leadership
4 group supervised, organized, and participated in the electronic document
5 review of over four million pages of documents produced by defendants
6 and numerous third parties, some of which were in foreign languages and
7 which needed to be translated. In addition, we gave the Attorneys General
8 access to this work product as they became involved with the litigation,
9 and trained them in the use of the system.
- 10 • We supervised and participated in the work with the IPP expert
11 economists to ensure that the sales and transactional data obtained was
12 sufficient to enable the experts to do appropriate damages calculations.
- 13 • We supervised and participated in the depositions of over 100 witnesses
14 from defendants and third parties in this country, Asia and Europe.
- 15 • We supervised and participated in the production of documents on behalf
16 of the named plaintiffs in the lead *Petro* case, as well as the defense of the
17 depositions of these class representatives.
- 18 • We participated in the drafting and argument of the opposition to
19 demurrers in the California JCCP Proceedings and in the IPPs' opposition
20 to defendants' various motions for judgment on the pleadings in the MDL.
21 We also participated in the drafting of the motion to this Court for
22 permission to file an interlocutory appeal, the successful petition to the
23
24
25
26

1 Ninth Circuit and the opening and reply briefs in the appeal of the Court's
2 application of AGC standing requirements to the Cartwright Act and other
3 state antitrust laws.

- 4 • Cooper & Kirkham, particularly Ms. Kirkham and myself, participated in
5 the drafting and editing of virtually every court filing, complaint and brief
6 in this litigation; most notably, in addition to those mentioned above, the
7 Second Amended Complaint, filed in response to the Court's ruling
8 granting defendants' motion for judgment on the pleadings on *AGC*
9 grounds, the IPP's motion and revised motion for class certification, and
10 the preparation of the declarations and the two expert reports submitted in
11 support of the motion, and the motion for preliminary approval of the
12 Samsung and Winbond settlements.
- 13 • We supervised and participated in the defense of the depositions of the
14 two IPP experts, the direct purchaser plaintiffs' expert, and in taking the
15 deposition of defendants' expert, as part of the class certification process.
- 16 • I, and to a lesser extent, Ms. Kirkham, participated in the numerous
17 mediation sessions and in other discussions with Judge Daniel J.
18 Weinstein, and were instrumental in negotiating the settlements with the
19 various named defendants, as well as with three other DRAM
20 manufacturers – Toshiba, Mitsubishi and Hitachi – that had not been
21 named as defendants, but had entered into tolling agreements with the
22 IPPs. These settlement discussions, which actually began during the
23
24
25
26

1 California JCCP Proceedings, gained momentum with the filing of the
2 *Petro* complaint in this Court.

- 3 • I supervised and participated in the negotiation and drafting of each of the
4 settlement agreements, and Ms. Kirkham served as IPP counsels' chief
5 negotiator and drafter of the Multi-Defendant Settlement Agreement and
6 the agreement with the Nanya defendants.
7
- 8 • Cooper & Kirkham also was extensively engaged in all of the post-
9 settlement proceedings before the Special Master. Specifically, Ms.
10 Kirkham was the chief drafter of the IPPs' submissions to the Special
11 Master on the subjects of the certification of the nationwide settlement
12 class and the question of whether class members' recoveries should be
13 weighted to reflect differences in the relative strength of their claims. She
14 also served as the chief drafter for the IPPs of the proposed findings of fact
15 and conclusions of law submitted to the Special Master on the issues of
16 class certification, plans of allocation and distribution, class notice and
17 claims processing, and assisted the Special Master in finalizing his Report
18 and Recommendations, Parts I and II for submission to the Court.
19
20

21 16. I anticipate that my firm and the other members of the leadership group will
22 continue to perform substantial work in the future, including the preparation of motions for
23 preliminary and final approval of the settlements, a motion to adopt the Report and
24 Recommendations of the Special Master, and in supervising the notice program, processing
25 the claims received, and distributing the settlement proceeds. Further, I anticipate that one or
26

1 more members of the professional objector bar will file an appeal from any settlement
2 approval orders that are ultimately entered, which will require the leadership group to defend
3 the settlements before the Ninth Circuit Court of Appeals.

5 I declare under penalty of perjury under the laws of the United States of America that

**DECLARATION OF STRAUS & BOIES, LLP IN SUPPORT OF
INDIRECT PURCHASER PLAINTIFFS' MOTION FOR AN AWARD OF
ATTORNEYS' FEES AND REIMBURSEMENT OF EXPENSES**

I, Timothy D. Battin, declare as follows:

1. I am a partner with the law firm of Straus & Boies, LLP, which is Co-Lead Counsel for the Indirect Purchaser Plaintiffs ("IPP"). I submit this Declaration in support of IPP Counsel's application for an award of attorneys' fees in connection with services rendered in the above action and reimbursement of expenses incurred by this firm related to the investigation, prosecution, and settlement of claims in the course of this litigation. I have personal knowledge of the facts stated in this declaration, and, if called as a witness, I could and would testify competently to them.

2. This firm has substantial experience in complex litigation and antitrust class action cases, including litigating numerous indirect purchaser antitrust class action cases. A firm biography and the biography of each attorney currently employed with the firm who has worked more than twenty hours on this case are attached hereto as Exhibit 1. *See* Exhibit 1.

3. The firm kept files contemporaneously documenting all time spent, including tasks performed, and expenses incurred. All of the time and expenses reported by the firm were incurred for the benefit of the IPPs. The firm's compensation for services rendered in this case was wholly contingent on the success of this litigation, and was totally at risk. While the firm devoted its time and resources to this matter, it has foregone other legal work, including hourly work, for which it would have been compensated.

4. The total number of hours spent on this litigation, from inception through May 31, 2013, by attorneys and paralegals at this firm has been 23,492.75. Time spent preparing the fee petition and related documents is not included. *See Exhibit 2.*

5. The total lodestar for this time, calculated at the firm's historic hourly rates during the litigation, is \$9,137,511.25 and the total lodestar at current rates is \$11,726,483.50.

6. Attached hereto as Exhibit 2 is a summary schedule showing the total time spent by each attorney and paralegal of this firm during the entire litigation, with the lodestar calculation for each attorney at both historical rates and current rates, and also detailed schedules for each year showing the total time spent by each attorney and paralegal during that year and the year's lodestar calculation for that attorney or paralegal based on the historic billing rates. The schedule was prepared from contemporaneous daily time records regularly maintained by this firm, which are available at the request of the Court.

7. This firm has expended a total of \$576,249.12 in non-reimbursed expenses in connection with the prosecution of this litigation. These expenses are summarized as follows (*see Exhibit 3*):

<u>EXPENSE</u>	<u>AMOUNT</u>
Copying Charges	\$ 23,180.50
Court Fees (filing, etc.)	\$ 5,067.00
Court Reporters/Transcripts	\$ 2,331.89
Computer Research (Lexis, Westlaw, etc.)	\$ 14,934.33
Expert Services	\$ 99,743.08
Telephone and Facsimile	\$ 5,465.01
Postage/Express Delivery	\$ 2,082.40
Travel: Air Transportation, Ground Travel, Meals, and Lodging	\$ 108,245.91
Common Litigation Fund	\$ 315,000.00
Outside IT Services/Database Work	\$ 199.00
TOTAL EXPENSES:	\$ 576,249.12

8. The expenses incurred pertaining to this case are reflected in the books and records of this firm maintained in the ordinary course of business. These books and records are prepared from expense vouchers, invoices, check records and similar items, and are an accurate record of expenses incurred. Attached hereto as Exhibit 3 are schedules detailing all of these expenses.

9. In the almost eleven years between the filing of the first complaints in this action, the final settlement with Hitachi in June 2012, and the Special Master's recent Reports and Recommendations regarding the settlements and class certification, IPP Counsel have devoted extraordinary effort and resources on behalf of the IPP class members. This firm, together with the other five IPP leadership firms, has been extensively involved in the leadership, as well as the

day-to-day activities, in all aspects of this litigation on behalf of the IPPs, including by performing the following work:

A. Pre-Filing Investigation, Due Diligence and State Complaints

10. Before the firm's initial IPP complaint was filed, we conducted an extensive investigation of potential price-fixing of DRAM. This due diligence led us to believe that the defendants ultimately named in the complaint had engaged in an unlawful conspiracy to stabilize the prices of DRAM at supra-competitive levels. Thus, beginning around October 2004, Straus & Boies, LLP filed complaints in numerous state courts including in Arizona, Florida, Hawaii, Iowa, Kansas, Michigan, New Jersey, New York, Nevada, New Mexico, North Carolina, South Dakota, Tennessee, West Virginia, and Wisconsin. Straus & Boies, LLP coordinated the state court actions with the MDL action in order to gain litigation efficiencies and preserve the resources of the parties and the Court.

B. Filing of Federal Complaints and MDL Proceedings

11. Following the enactment of the Class Action Fairness Act of 2005, the firm filed complaints on behalf of indirect purchasers of DRAM in several federal courts. In total, more than 60 class action complaints were filed in state and federal courts around the country. This firm, working with the other five leadership firms, obtained the transfer and consolidation of all the federal court actions to the District Court for the Northern District of California and coordinated the state court cases that were not removed and consolidated in this Court. We also succeeded in designating the *Petro Computer Systems, Inc. v. Micron Technology*, Case No. M-02-1486-PJH, complaint as the relevant complaint in order to effectively coordinate pretrial proceedings.

12. By Order dated September 20, 2005, the Court appointed this firm and Cooper & Kirkham, P.C., Gustafson Gluek PLLC, and The Mogin Law Firm, P.C. as IPP Co-Lead Counsel to manage jointly the Indirect Purchaser Actions. The Court appointed Francis Scarpulla as IPP Liaison Counsel and appointed an 18-member Executive Committee. Gross Belsky Alonso LLP was then selected as Chairman of the Executive Committee. Together, this firm and the five other leadership firms (collectively, the “IPP Leadership Firms”) immediately began organizing IPP counsel to efficiently prosecute these MDL cases, establish a method for funding the litigation, and manage counsel so that the work was performed effectively and efficiently.

C. Discovery

13. The IPP Leadership Firms engaged in massive and time-consuming discovery, as detailed below.

14. Because of the continuing investigation of the United States Department of Justice (“DOJ”), general discovery in the private actions was stayed until July 24, 2005. However, during that stay, IPP Leadership Firms obtained access to and reviewed the millions of pages of documents that the Defendants produced to the DOJ, and also propounded interrogatories to the Defendants. After the Court lifted the stay, the IPP Leadership Firms, along with the Direct Purchaser Plaintiffs and the state Attorneys General (“AGs”), engaged in coordinated common liability discovery.

15. During discovery, defendants produced over four million documents from both domestic and foreign entities. There were numerous issues involving each defendant about the completeness of the productions, the technical form of the electronic documents, and whether document searching occurred within the files of particularly important company witnesses, or “custodians,” and obtaining these documents required extensive meeting and conferring with

defendants. The IPP Leadership Firms processed, reviewed, categorized, and annotated these documents, using a then-groundbreaking internet-based electronic document management system that allowed simultaneous access by counsel working from their separate offices all over the United States. A large portion of produced documents were in Japanese, Korean, or Chinese, which then had to be translated into English. The IPP Leadership Firms later shared access to this database and their work product with the AGs when the various states filed cases in 2007.

16. Counsel obtained worldwide transactional sales data of DRAM manufactured by defendants in the global market, and, in consultation with IPP experts, sought and received manufacturing cost data and detailed transactional sales data of DRAM, both as components in computers and as stand-alone DRAM modules. IPP Counsel engaged in continuous consultations with their experts, in order to ensure that the sales and transactional data obtained was sufficient to enable the experts to do appropriate damages calculations. Review of these documents was a massive project, and accounts for a substantial number of the hours devoted by the IPPs and AGs in this case.

17. The IPP Leadership Firms also served subpoenas on over 30 third parties, primarily on direct purchasers of DRAM and sellers of products containing DRAM. Most of these were very large entities such as Dell, Gateway, Apple, Circuit City, CompUSA, Hewlett-Packard, and IBM. These were especially critical because the IPPs needed to demonstrate that pass through of the direct overcharge could be established on a class-wide basis. Each of these subpoenas had to be individually negotiated, with the assistance of the IPPs' expert economists. The IPP Leadership Firms reviewed and carefully analyzed the third-party information obtained.

18. Since Defendants contended that there was no method of common proof of impact and damages, and that the indirect purchaser distribution channels were so complicated that it

was virtually impossible to establish that any overcharge was passed through to the ultimate consumers, the IPPs had to devote substantial resources in investigating and obtaining discovery on these issues. This involved substantial investigations into industry data on sales, transactions and pricing of DRAM and computers containing DRAM, aided by experts, in order to obtain sufficient data for the experts' regression analyses. It also involved investigations into the numerous distribution channels, in order to develop methods of common proof of impact and damages.

19. Following the document review and investigations, the IPP Leadership Firms participated in and supervised the depositions of approximately 100 witnesses from Defendants and third parties, on issues relating to liability and to class certification, *e.g.*, channels of distribution, manufacturing, pricing, and sales processes, identities of witnesses, and various issues critical to the IPPs' class certification experts. Each of these depositions required extensive document review and preparation. Following extensive negotiations, the depositions took place in various locations throughout this country, in Europe and in Asia. Additionally, the IPP Leadership Firms worked extensively with consultants and economic experts to ensure that the discovery obtained would be focused on information needed to prepare for a motion for class certification, as well as that needed to prepare for trial.

20. The IPP Leadership Firms participated in and supervised the production of documents on behalf of the ten named plaintiffs as well as the defense of the depositions of these class representatives in various locations around the country.

21. The IPP Leadership Firms' discovery tasks included: overseeing, managing, and participating in the coordinated efforts of all discovery, including document productions, written discovery, data productions, third-party discovery, depositions and discovery motions; drafting,

serving and, with co-counsel, negotiating all initial requests for production of documents and interrogatories; maintaining the central repository for all defendant and third party document productions; responding to defendants' requests for production to class representatives; supervising and organizing the electronic document review of over four million pages of documents produced by defendants and numerous third parties, a large portion of which were in Korean, Japanese and Chinese and which needed to be translated; developing a document review approach using a then-groundbreaking electronic document depository and electronic search capability; leading and organizing the document review under a team structure, with appointed team leaders overseeing each group of reviewers; supervising and working closely with numerous dedicated co-counsel firms who participated in the document review that lasted for several years; developing, with co-counsel, a workflow to allow for the review of foreign language documents; continuously interfacing with the team leaders and modifying the document review process to meet the needs of the litigation; negotiating the production of defendant and third party data, including leading meet and confers with defendants and interfacing with economists regarding data interpretation questions; supervising the preparation and the taking of merits depositions, including ensuring that all co-counsel taking depositions received relevant documents and their foreign translations from co-counsel in advance of schedule; and preparing for and taking the depositions of numerous witnesses.

D. Motions for Judgment on the Pleadings and Motions to Dismiss

22. On August 14, 2006, Defendants moved for judgment on the pleadings as to all antitrust claims arising from the purchase of DRAM as a component in a computer or other device, asserting that plaintiffs who purchased DRAM as a component in an electronic device lacked standing under various state antitrust laws because their injuries were too remote to any

price-fixing of DRAM itself, and therefore failed to satisfy the “antitrust standing” requirements set forth in *Assoc. Gen. Contractors of Cal. v. Cal. State Council of Carpenters*, 459 U.S. 519 (1983) (“*AGC*”) (Dkt. No. 1008). IPP Counsel prepared and argued the opposition to the motion for judgment on the pleadings. On June 1, 2007, the Court granted judgment on the pleadings in relevant part for lack of antitrust standing for those claims based on purchases of products in which DRAM was a component, dismissing those claims with prejudice (Dkt. No. 1555; “the *AGC* Order”).

23. In response to the Court’s ruling, the IPP Leadership Firms drafted a Second Amended Complaint, and drafted and successfully argued a motion for leave to file this amended complaint, to allege facts that demonstrated that the markets for DRAM module and for computers are “inextricably linked, and cannot be considered separately,” which the Court granted on August 17, 2007. (Dkt. Nos. 1593-1594, 1683). On August 17, 2007, the IPP Leadership Firms filed a Second Amended Complaint. (Dkt. No. 1684).

24. Then, on October 1, 2007, Defendants filed a motion to dismiss the Second Amended Complaint, again challenging it on *AGC* grounds, and challenging the IPPs’ standing to assert claims for computer purchases under the antitrust laws of sixteen states. (Dkt. No. 1740.) On October 31, 2007, the IPP Leadership Firms filed an opposition to the motion to dismiss (Dkt. No. 1762), and then argued this motion at a Court hearing. On January 29, 2008, the Court granted Defendants’ motion to dismiss. (Dkt. No. 1809; the “MTD Order”).

25. When the Court granted defendants’ motion to dismiss the Second Amended Complaint, the IPP Leadership Firms successfully moved for and obtained permission from the Court to file an interlocutory appeal. (Dkt. No. 1849). On April 18, 2008, the Court entered an order on the parties’ stipulation for a stay of all proceedings during the time the Ninth Circuit

considered IPPs' Section 1292(b) Petition. (Dkt. No. 1853.) The Ninth Circuit Court of Appeals granted the IPPs' Petition for Permission to Appeal under 28 U.S.C. § 1292(b) on June 26, 2008. The IPP Leadership Firms prepared opening and reply briefs in support of the appeal.

26. As discussed below, in December 2009, the IPPs reached a settlement with all remaining defendants, and on February 11, 2010, pending the finality of the settlements, the IPP Leadership Firms moved to stay the appeal, pending final approval of the settlements.

E. Class Certification

27. The IPP Leadership Firms incurred significant expense and time on behalf of the purported class in order to prepare for class certification. The IPP Leadership Firms worked for years with prestigious economic experts in prosecuting this case. On August 24, 2007, the IPP Leadership Firms filed a motion for class certification (Dkt. No. 1689) based on their Second Amended Complaint, pursuant to Rule 23(b)(2) of the Federal Rules of Civil Procedure, seeking a federal injunctive-relief class under Section 16 of the Clayton Act (15 U.S.C. § 26). The IPP Leadership Firms submitted two expert reports in support of the motion for class certification. The IPP Leadership Firms defended two expert depositions, and took one expert deposition, as part of the class certification process. After Defendants filed their motion to dismiss the IPPs' Second Amended Complaint (as discussed above), on December 5, 2007, the Court vacated the January 16, 2008 hearing on class certification in order to "settle the pleadings before class certification [was] addressed." (Dkt. No. 1794). This class certification process was then stayed pending the appeal to the Ninth Circuit, and then was stayed by the pendency of the settlement agreements.

F. Mediations and Settlements

28. The IPP Leadership Firms and the AGs began settlement discussions with various defendants in early 2006. In June 2006, the IPPs reached a settlement in principle with Samsung, with the assistance of a mediator. The IPPs reached a settlement with Winbond shortly thereafter. Written settlement agreements were executed with Samsung and Winbond in early 2007. Samsung then provided substantial cooperation to the IPPs.

29. On November 30, 2006, the parties commenced a mediation with all other remaining Defendants, with Judge Daniel J. Weinstein as mediator. The initial phase of this mediation took place over numerous months, but was unsuccessful in reaching a settlement. Shortly after the Court was informed that the settlement discussions were unsuccessful, on June 1, 2007, as stated above, the Court granted Defendants' motion for judgment on the pleadings based on *AGC*, dismissing all the IPP antitrust claims based on purchases of computers or other products containing DRAM. This ruling had the effect of removing approximately 80% of the commerce in DRAM from the IPPs' case, and severely impacted further settlement discussions. Despite this adverse ruling, the IPP Leadership Firms refused to accept any settlements based on a reduced class comprised solely of purchasers of stand-alone DRAM modules. Instead, as noted above, the IPP Leadership Firms successfully moved to amend the complaint in order to overcome the *AGC* objection, but when the Court subsequently granted Defendants' motions to dismiss the Second Amended Class Complaint, the IPP Leadership Firms obtained permission from both this Court and the Ninth Circuit for an interlocutory appeal, and successfully moved to stay the class case pending resolution of the Ninth Circuit appeal.

30. Mediation discussions with Judge Weinstein continued after the Ninth Circuit appeal was filed. Ultimately, in December 2009, the IPP Leadership Firms reached a settlement in principle with the remaining Defendants. A written settlement agreement with all remaining

Defendants was executed in December 2010. Starting shortly after the settlement was agreed to in principle, all parties began discussions with the Special Master concerning the resolution of the entire case.

31. Thereafter, the IPP Leadership Firms pursued three other DRAM manufacturers – Toshiba, Mitsubishi and Hitachi. These three manufacturers had not been named as defendants, but had entered into tolling agreements with the IPPs and AGs. The IPP Leadership Firms ultimately executed settlement agreements with these three DRAM manufacturers in December 2011 and July 2012.

G. Post-Settlement Proceedings Before the Special Master

32. After the settlements were reached with Samsung and Winbond, the Court entered two orders (Dkt. Nos. 1787 and 1789) on November 30, 2007 which appointed Judge Charles Renfrew as Special Master, to issue a Report and Recommendation on the fairness of the settlements themselves and to recommend whether the ultimate certification of the class is appropriate, as well as to preside over the development of a plan of allocation for the IPP Settlement Class and the class of governmental purchasers for the various states that had alleged class claims (the “Government Purchaser Settlement Class”); to determine whether any subclasses or other means of a fair and equitable allocation; to develop a form of notice and methods of dissemination of the notice.

33. Pursuant to this reference, the IPP Leadership Firms, the AGs, Samsung and Winbond had numerous meetings with the Special Master to discuss these issues. Shortly thereafter, the IPPs filed an appeal in the Ninth Circuit challenging the Court’s *AGC* Order and *MTD* Order, which had dismissed all class antitrust claims arising from the purchase of DRAM-containing products based on *AGC*. Additionally, mediation and settlement discussions

continued between the plaintiffs and the remaining defendants. Because the results of the ongoing settlement discussions and the pending appeal would have a significant bearing on the issues referred to the Special Master, the Special Master and the parties waited for the outcome of the appeal and the settlement discussions before continuing with the settlement approval process.

34. In December 2009, after the IPP Leadership Firms reached an agreement in principle with the remaining Defendants, the Special Master began discussions with all parties concerning a schedule for the Special Master to make a report and recommendation on all issues referred to him. After the IPPs and AGs signed a written settlement agreement with the remaining defendants, on November 29, 2010, the Court entered another order that referred the new MDSA to the Special Master and included it within the previous reference, and also expanded the reference to include findings and recommendations as to attorneys' fees, reimbursement of expenses and incentive awards. Finally, after the later settlements with Nanya, Mitsubishi, Toshiba and Hitachi were signed, the Court entered Orders including these settlements within the scope of the Court's November 29, 2010 reference to the Special Master.

35. The IPP Leadership Firms, the AGs and Defendants agreed with the Special Master upon a detailed briefing schedule, dividing the briefing and argument into five phases. The first phase involved establishing the basic market facts relevant to a reasonable allocation of the funds to pay the anticipated claims of all indirect purchasers in the nationwide class, focusing on the products, distribution channels, final uses and the pass-on of the alleged overcharges between indirect purchaser-resellers and end-user/consumer groups, as well as their various characteristics and their relative percentages of DRAM commerce. The second phase involved identifying and resolving issues relevant to crafting a fair and reasonable plan of distribution to

all class members, including whether monetary distributions could be made to household claimants, whether a *cy pres* distribution could be used for some claimants, and whether the plan should reflect differences in the “strength” or procedural positions underlying individual claims, due to differences in state law, and if so, whether subclasses were necessary. The third phase involved proposals concerning the settlement of the class claims asserted by the AGs on behalf of certain Governmental Purchaser Plaintiffs, as those proprietary claims required court review and approval. The fourth phase dealt with notice and claims administration. The fifth phase dealt with any award of attorneys’ fees and out-of-pocket litigation expenses. During this phase, the IPP Leadership Firms and the AGs with the assistance of the Special Master resolved a dispute concerning the allocation of attorneys’ fees between IPP Counsel and the AGs, with a resolution that 80.8% of the fees would be allocated to IPP Counsel and 19.2% allocated to the AGs. As part of that process, the IPP Leadership Firms and the AGs agreed to submit this Joint Motion for Attorneys’ Fees.

36. Throughout these proceedings before the Special Master, the IPP Leadership Firms prepared and submitted expert reports and briefing concerning relevant market facts, focusing on the products, distribution channels, and final uses of DRAM by the resellers and end-user/consumer sub-groups. The issues were hotly disputed among the various groups, with many of the issues resolved only through intense advocacy by the IPP Leadership Firms and with the guidance of and interim rulings by the Special Master as to all disputed issues. The disputed issues included reconciling differences between the expert reports from the IPPs’ expert, the AGs’ expert and the resellers’ expert, on DRAM market structure and distribution channels, and on how these market structures and distribution channels would affect the calculation of any distributions to class members and allocations among various groups of indirect purchasers.

Ultimately, the IPP Leadership Firms and the other parties, with the guidance of the Special Master, and after extensive briefing, reconciled the various expert reports.

37. The IPP Leadership Firms also extensively briefed and argued the issue of whether any subclassing was needed, or whether individual needs could be adequately met through the distribution calculation methods; whether a 50-state settlement class could be certified; and whether or not there should be tiering of claims as part of the allocation process, so that claimants in *Illinois Brick* repealer states would have a larger return than claimants in non-repealer states. One very significant issue resolved was the issue of overcharge retention and pass-through from reseller intermediaries to indirect purchaser end-users, which necessitated the submission to the Special Master of competing expert reports on this issue alone.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct to the best of my knowledge, information, and belief.

Executed this 29 day of July, 2013.

**Partial List of Recent Cases In Which Straus & Boies, LLP
Has served As Lead Counsel**

Eggs

Straus & Boies, LLP is co-lead counsel of indirect purchasers across the country and in 17 jurisdictions alleging a conspiracy to fix the prices of eggs. This litigation, which began in late 2008, includes complicated claims reaching back almost ten years in a multi-billion dollar industry. If successful, Straus & Boies, LLP will secure millions to the benefit of the injured classes throughout the country.

Vitamins

As lead counsel in coordinated multi-state proceedings of more than 50 indirect purchaser classes and *parens patriae* actions filed in 23 separate state jurisdictions against the international manufacturers of bulk vitamins, Straus & Boies negotiated and finalized a series of settlements with the defendants. The first settlement secured by Straus & Boies was at that time the largest ever indirect purchaser antitrust settlement. Straus & Boies's efforts in successfully resolving the state vitamins indirect purchaser actions included structuring, implementing, and leading coordinated alternative dispute resolution proceedings sanctioned by state courts throughout the country, and involving scores of plaintiffs' counsel, numerous counsel for foreign and domestic defendants, and the State Attorneys General.

Food Additives

As sole lead counsel for more than 10 indirect purchaser state class action claims filed across the country, Straus & Boies effectively advanced the claims of indirect purchasers against the manufacturers of food additives for an illegal price-fixing conspiracy that affected consumer prices for well over a decade. The cases allege that the major manufacturers of certain food

additives conspired to fix prices during the period January 1, 1990 through 2002. Straus & Boies received final approval of a global settlement which provided millions to the affected class members.

Dynamic Random Access Memory (DRAM)

Straus & Boies, LLP, is currently serving as co-lead counsel in these coordinated multi-state proceedings against the manufacturers of Dynamic Random Access Memory chips (DRAM) for the violation of various state's antitrust/consumer protection laws. It is alleged that the DRAM manufacturers entered into and engaged in a conspiracy in the United States and elsewhere to suppress and eliminate competition by fixing the prices of DRAM. Straus & Boies, LLP has been prosecuting the claims of indirect purchasers of DRAM since October 2004. Settlements have been reached with all defendants totaling more than \$300,000,000.

**UNITED STATES DISTRICT COURT

**In re: DYNAMIC RANDOM ACCESS

LITIGATION** :
: MDL No. 1486
:

This Document Relates to: :
:
ALL INDIRECT PURCHASER ACTIONS :
:

**DECLARATION OF GUSTAFSON GLUEK PLLC IN SUPPORT OF INDIRECT
PURCHASE PLAINTIFFS' MOTION FOR AN AWARD OF
ATTORNEYS' FEES AND REIMBURSEMENT OF EXPENSES**

I, Daniel E. Gustafson, declare as follows:

1. I am a founding member of the law firm Gustafson Gluek PLLC, which is Co-Lead Counsel for the Indirect Purchaser Plaintiffs ("IPP"). I submit this Declaration in support of IPP Counsel's application for an award of attorneys' fees in connection with services rendered in the above action and reimbursement of expenses incurred by this firm related to the investigation, prosecution, and settlement of claims in the course of this litigation. I have personal knowledge of the facts stated in this declaration, and, if called as a witness, I could and would testify competently to them.

2. This firm has substantial experience in complex litigation and antitrust class action cases, including litigating numerous indirect purchaser antitrust class action cases. A firm biography and the biography of each attorney currently employed with the firm who has worked more than twenty hours on this case are attached hereto as Exhibit 1.

3. The firm kept files contemporaneously documenting all time spent, including tasks performed, and expenses incurred. All of the time and expenses

1 reported by the firm were incurred for the benefit of the IPPs. The firm's
 2 compensation for services rendered in this case was wholly contingent on the success
 3 of this litigation, and was totally at risk. While the firm devoted its time and
 4 resources to this matter, it has foregone other legal work, including hourly work, for
 5 which it would have been compensated.

6 4. The total number of hours spent on this litigation, from inception
 7 through May 31, 2013, by attorneys and paralegals at this firm has been 17,375.60.
 8 Time spent preparing the fee petition and related documents is not included.

9 5. The total lodestar for this time, calculated at the firm's current hourly
 10 rates, is \$9,650,534.50, and its total lodestar calculated at historic hourly rates during
 11 the litigation is \$6,706,369.00.

12 6. Attached hereto as Exhibit 2 is a summary schedule showing the total
 13 time spent by each attorney and paralegal of this firm during the entire litigation,
 14 with the lodestar calculation for each attorney at both historical rates and current
 15 rates, and also detailed schedules for each year showing the total time spent by each
 16 attorney and paralegal during that year and the year's lodestar calculation for that
 17 attorney or paralegal based on the historic and current billing rates. The schedule
 18 was prepared from contemporaneous daily time records regularly maintained by this
 19 firm, which are available at the request of the Court.

20 7. This firm has expended a total of \$599,915.30 in non-reimbursed
 21 expenses in connection with the prosecution of this litigation. These expenses are
 22 summarized as follows:

23 <u>EXPENSE</u>	<u>AMOUNT</u>
24 Copying Charges (including outside copies)	\$ 51,414.25
25 Court Fees (filing, etc.)	\$ 6,160.00
26 Computer Research (Lexis, Westlaw, PACER)	\$ 21,539.97

1	Expert Services	\$ 8,388.30
2	Telephone and Facsimile	\$ 9,312.84
3	Postage/Express Delivery/Messenger	\$ 8,063.35
4	Travel: Air Transportation, Ground Travel, Meals,	\$ 110,749.96
5	and Lodging	
6	Common Litigation Fund	\$ 382,000.00
7	Outside IT Services/Database Work	\$ 876.25
8	Outside Conference Center Facilities	\$ 1,410.38
9	(Document Review and Mediation)	
10	TOTAL EXPENSES:	\$ 599,915.30

11

12 8. The expenses incurred pertaining to this case are reflected in the books
13 and records of this firm maintained in the ordinary course of business. These books
14 and records are prepared from expense vouchers, invoices, check records and similar
15 items, and are an accurate record of expenses incurred. Attached hereto as Exhibit 3
16 are schedules detailing all of these expenses.

17 9. In the almost eleven years between the filing of the first complaints in
18 this action, the final settlement with Toshiba in October 2012, and the Special
19 Master's recent Reports and Recommendations regarding the settlements and class
20 certification, IPP Counsel have devoted extraordinary effort and resources on behalf
21 of the IPP class members. This firm, together with the other five IPP leadership
22 firms, has been extensively involved in the leadership, as well as the day-to-day
23 activities, in all aspects of this litigation on behalf of the IPPs, including by
24 performing the following work:

- 25 • Conducted an extensive investigation of potential price-fixing of
- 26 DRAM. This due diligence led us to believe that the defendants

Gustafson Gluek PLLC practices before state and federal courts throughout the country and works with and opposes some of the nation's largest companies and law firms. The firm was formed in May 2003.

Daniel E. Gustafson

Daniel E. Gustafson is a founding member of Gustafson Gluek PLLC. He is a *magna cum laude* graduate of the University of North Dakota with majors in Economics and Sociology (B.A. 1986) and a *cum laude* graduate of the University of Minnesota Law School (J.D. 1989). **In re: DYNAMIC RANDOM ACCESS :
MEMORY (DRAM) ANTITRUST : MDL NO. 1486
LITIGATION :**

This Document Relates to: :

INDIRECT PURCHASER ACTION :

**DECLARATION OF GROSS BELSKY ALONSO LLP IN SUPPORT OF
INDIRECT PURCHASER PLAINTIFFS' MOTION FOR AN AWARD OF
ATTORNEYS' FEES AND REIMBURSEMENT OF EXPENSES**

I, Terry Gross, declare as follows:

1. I am a partner with the law firm of Gross Belsky Alonso LLP, which is the Chair of the Executive Committee for the Indirect Purchaser Plaintiffs ("IPPs") in this litigation. I submit this Declaration in support of IPP Counsel's and the Attorneys General's ("AGs") application for an award of attorneys' fees in connection with services rendered in the above action and IPP Counsel's separate application for reimbursement of expenses related to the investigation, prosecution, and settlement of claims in the course of this litigation, and for incentive awards. I have personal knowledge of the facts stated in this declaration, and, if called as a witness, I could and would testify competently to them.

2. This firm has substantial experience in complex litigation and antitrust class action cases, including litigating numerous indirect purchaser antitrust class action cases. A firm biography and the biography of each attorney currently employed with the firm who has worked more than twenty hours on this case are attached hereto as Exhibit 1.

3. The firm kept files contemporaneously documenting all time spent, including tasks performed, and expenses incurred. All of the time and expenses reported by the firm were incurred for the benefit of the IPPs. The firm's compensation for services rendered in this case was wholly contingent on the success of this litigation, and was totally at risk. While the firm devoted its time and resources to this matter, it has foregone other legal work, including hourly work, for which it would have been compensated.

4. The total number of hours spent on this litigation, from inception, by attorneys and paralegals at this firm has been 12,854.8. Time spent preparing the fee petition and related documents is not included.

5. The total lodestar for this time, calculated at the firm's current hourly rates, is \$7,744,855.00, and its total lodestar calculated at historic hourly rates during the litigation is \$6,241,175.00.

6. Attached hereto as Exhibit 2 is a summary schedule showing the total time spent by each attorney and paralegal of this firm during the entire litigation, with the lodestar calculation for each attorney at both historical rates and current rates, and also detailed schedules for each year showing the total time spent by each attorney and paralegal during that year and the year's lodestar calculation for that attorney or paralegal based on the historic billing rates. The schedule was prepared from contemporaneous daily time records regularly maintained by this firm, which are available at the request of the Court.

7. This firm has expended a total of \$ 407,785.28 in non-reimbursed expenses in connection with the prosecution of this litigation. These expenses are summarized as follows:

<u>EXPENSE</u>	<u>AMOUNT</u>
Copying Charges	\$ 16,519.68

Court Fees (filing, etc.)	\$ 1,487.80
Computer Research (Lexis, Westlaw, etc.)	\$ 35,361.38
Telephone and Facsimile	\$ 40,947.53
Postage/Express Delivery	\$ 4,074.39
Travel: Air Transportation, Ground Travel, Meals, and Lodging	\$ 32,653.90
Common Litigation Fund	\$ 275,000.00
Other/Miscellaneous	\$ 1,740.60
TOTAL EXPENSES:	\$ 407,785.28

8. The expenses incurred pertaining to this case are reflected in the books and records of this firm maintained in the ordinary course of business. These books and records are prepared from expense vouchers, invoices, check records and similar items, and are an accurate record of expenses incurred. Attached hereto as Exhibit 3 are schedules detailing all of these expenses.

9. In the almost eleven years between the filing of the first complaints in this action, the final settlement with Hitachi in June 2012, and the Special Master's recent Reports and Recommendations regarding the settlements and class certification, IPP Counsel have devoted extraordinary effort and resources on behalf of the IPP class members. This firm, together with the other five IPP leadership firms, has been extensively involved in the leadership, as well as the day-to-day activities, in all aspects of this litigation on behalf of the IPPs, including by performing the following work:

- Beginning in July 2002, conducted an extensive pre-filing investigation of potential price-fixing of DRAM, which led us to believe that the defendants

ultimately named in the complaint had engaged in an unlawful conspiracy to stabilize the prices of DRAM at supra-competitive levels;

- On August, 19 2002, filed a class action complaint in San Francisco Superior Court, *Charles J. Garrett v. Micron Technology, Inc., et al*, Case No. 411614, which was one of the first DRAM IPP class action complaints filed in the nation;
- Organized the consolidation of all California IPP cases in San Francisco, and on April 10, 2003, was appointed by the San Francisco Superior Court as Plaintiffs' Co-Liaison Counsel with Cooper & Kirkham, P.C., and assigned the duties of co-lead counsel for the California IPP cases;
- With Co-Liaison Counsel, retained experts to help perform a detailed analysis of DRAM market conditions, including pricing, supply and distribution;
- With Co-Liaison Counsel, negotiated with defendants' counsel to commence discovery, produce documents and set a schedule for further proceedings, resulting in a schedule that was presented to the Court in August 2003, that provided for defendants to produce the same documents they had produced to the grand jury, and to proceed with written discovery and depositions in the California proceeding consistent with the Order Limiting the Scope of Discovery that had been entered in April 2003, in the federal direct purchaser actions;
- On October 15, 2003, with Co-Liaison Counsel, filed a Consolidated Amended Class Action Complaint in the California proceeding on behalf of a nationwide class of non-governmental indirect DRAM purchasers;

- Engaged in motion practice and discovery in the California proceeding;
- In the fall of 2004 and early 2005, negotiated with counsel filing additional state court and federal court cases to coordinate all nationwide IPP cases;
- Conducted additional investigations concerning the DOJ's indictments and defendants' plea agreements;
- Participated in the preparation of and filing of the *Petro* complaint in this Court, and related it to the ongoing direct purchaser DRAM MDL proceeding in this Court;
- Working jointly with counsel in all IPP cases filed in both state and federal courts throughout the nation, obtained the transfer, consolidation, and coordination of all of the federal court IPP actions in the MDL proceeding in this Court, and coordinated the remaining state court actions;
- Organized plaintiffs' counsel to efficiently prosecute the MDL cases, by creating a leadership structure consisting of the four Co-Lead Counsel of Cooper & Kirkham, P.C., The Mogin Law Firm, P.C., Gustafson Gluck PLLC and Straus & Boies, LLP, Liaison Counsel Law Offices of Francis O. Scarpulla (succeeded by Zelle, Hofmann, Voelbel, Mason & Gette LLP), and Chair of the Plaintiffs' Executive Committee Gross & Belsky LLP (succeeded by Gross Belsky Alonso LLP);
- With this leadership, established a method for funding the litigation, and managed counsel so that the work was performed effectively and efficiently;

- Oversaw, managed, and participated in the coordinated efforts of all discovery, including document productions, written discovery, data productions, third-party discovery, depositions and discovery motions;
- Supervised and participated in the propounding of discovery requests to defendants;
- Supervised and participated in meet and confers with the defendants concerning document production and other discovery issues;
- Supervised, organized, and participated in the electronic document review of over four million pages of documents produced by defendants and numerous third parties, some of which were in foreign languages and which needed to be translated, including developing a document review approach using a then-groundbreaking electronic document depository and electronic search;
- Supervised and participated in the service of subpoenas on over 30 third parties, negotiated with the third parties concerning their responses and productions, and reviewed and analyzed the third-party information obtained;
- Supervised and participated in the work with the IPP expert economists to ensure that the sales and transactional data obtained was sufficient to enable the experts to do appropriate damages calculations;
- Supervised and participated in the depositions of over 100 witnesses from defendants and third parties in this country and in Asia;
- Supervised and participated in the production of documents on behalf of the named plaintiffs in the lead *Petro* case, as well as the defense of the depositions of these class representatives;

- Supervised and participated in the drafting and argument of the IPPs' opposition to defendant's motion for judgment on the pleadings;
- Supervised and participated in the preparation of a Second Amended Complaint in response to the Court's ruling granting defendants' motion for judgment on the pleadings;
- Supervised and participated in the drafting and argument of the IPP's opposition to defendants' motion to dismiss the Second Amended Complaint;
- Successfully moved for and obtained permission from the Court to file an interlocutory appeal with the Ninth Circuit and then successfully petitioned the Ninth Circuit for permission to appeal the Court's ruling granting defendants' motion to dismiss the Second Amended Complaint;
- Supervised and participated in the preparation of the opening and reply briefs in support of the Ninth Circuit appeal;
- Supervised and participated in the preparation of the IPP's motion for class certification, including the preparation of the two expert reports submitted in support of the motion;
- Supervised and participated in the defense of the depositions of the two IPP experts, and in taking the deposition of defendants' expert, as part of the class certification process;
- Engaged in settlement discussions with various defendants in early 2006, which led to settlements with Samsung and Winbond in early 2007;

- Participated in numerous mediation sessions with Judge Daniel J. Weinstein and direct negotiations with the remaining defendants, resulting in a settlement with the remaining defendants in December 2010;
- Supervised and participated in the negotiations with three other DRAM manufacturers – Toshiba, Mitsubishi and Hitachi – that had not been named as defendants, but had entered into tolling agreements with the IPPs, which led to settlements with these three DRAM manufacturers in December 2011 and July 2012;
- Supervised and participated in the negotiation and preparation of the settlement agreements for each of the settlements;
- Engaged in extensive post-settlement proceedings before the Special Master to address the fairness of the settlements, class certification, allocation of the settlement proceeds, and notice issues, including the preparation and submission of expert reports and extensive briefing on these issues.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct to the best of my knowledge, information, and belief.

Executed this 5th day of August, 2013.

Throughout his career, Mr. Gross has engaged in significant complex litigation nationally on behalf of both private clients and civil liberties organizations, including the National Emergency Civil Liberties Committee and the Bill of Rights Foundation, in matters ranging from private commercial disputes to actions implicating important constitutional issues. He has been named a Northern California Super Lawyer.

Mr. Gross has an extensive focus on the changing face of copyright, trademark and media law in the digital age. Mr. Gross' first degree and career was in computer science and his experience as a systems programmer for IBM, a systems analyst at University of California Medical Center and as the director of data processing for a local governmental agency gave him early expertise in the developing computer field. Since that time, and aided by his educational and professional experience, Mr. Gross has been an active force in the field of Internet law. He was the first general counsel to the Electronic Frontier Foundation, a civil liberties organization focusing on first amendment issues surrounding Internet-based technology. Recently, he represented Think Secret, an online journalist improperly sued by Apple for trade secret misappropriation, counterattacking by seeking sanctions against Apple for filing a lawsuit without merit, as under the First Amendment publishers and journalists have the right to disseminate information lawfully obtained by them. He has successfully defended an internet service provider sued by a software industry group for copyright infringement, represents content providers in negotiations with networks, and litigates jurisdictional issues raised by Internet activity.

Mr. Gross has extensive experience in matters of intellectual property. As General Counsel to Burning Man, the internationally known arts festival, he has negotiated, advised and litigated numerous trademark, copyright and privacy matters on its behalf, including a successful defense of a lawsuit challenging the event's major trademarks. Other significant engagements include representation of one of the world's largest watch manufacturers in a trademark infringement action; the Estate of Norma Millay Ellis relating to the sale of the literary properties of Edna St. Vincent Millay; and a French biotechnology company in litigation relating to the sublicense of patent rights, and in contract negotiations about the sale of biotechnology development rights. Mr. Gross actively advises and litigates on trademark and copyright issues. He also represents authors, artists, performers and their agents in negotiating contracts for publication, performance, and sale of motion picture and television rights.

Mr. Gross regularly represents journalists and media organizations. In 2008, he represented The New York Times and several Business Week journalists against Hewlett-Packard, seeking and obtaining damages when HP illegally obtained private telephone records of the journalists in an attempt to learn the trade secrets of the identities of the journalists' sources. He is currently representing two photojournalists in lawsuits against the police concerning media access to and ability to cover breaking news events. He also advises media entities on defamation and libel clearance, and actively represents plaintiffs in defamation cases involving national and local news media. Mr. Gross represents clients prior to the publication of potentially inflammatory articles in negotiations with news media to ensure the publication of accurate information.

Mr. Gross has a varied practice in public international law. He recently represented the national telephone company of Bolivia, and in proceedings in New York and London successfully overturned attachment orders of the telephone company's assets, issued after the

telephone company had been nationalized. Among other engagements, he has been lead counsel and adviser to the Republic of Panama, its agencies and its Mission to the United Nations; represented the Cuban national telephone company and successfully overturned the attempted garnishment of its assets to satisfy a judgment against the Republic of Cuba; and represented the Republic of South Africa in lawsuits concerning Internet activity and domain names. Mr. Gross represents foreign companies in contract negotiations with U.S. companies and in matters relating to their U.S. subsidiaries, and provides advice and obtains licenses for transactions with countries subject to trading restrictions.
